ABOUT US –

- We are a team of enthusiastic **Lucky college** students pursuing our **BCA** degrees with a shared passion for **software development** and innovative projects. This **Cinema Seat Booking System** is part of our journey to explore and apply our programming skills to solve real-world problems creatively.
- Our team has worked collaboratively to design and develop this project, combining expertise in web technologies like **HTML**, **CSS**, and **JavaScript**. The project demonstrates our ability to create interactive and user-friendly applications while implementing essential functionalities such as **localStorage** for persistence, form validation, and responsive design.
- Checkout Source code on GitHub :
